Assumptions -

- 1) A member can issue book only when he dont have any due fine . Suppose a member issue a book and didnt returned for 12 days . If he wants to issue book , he cant because he has pending fine of the book he borrowed for 12 days.
- 2) Pay fine pays current fine of the member . It does'nt returned any borrowed book .
- 3) Return book function only returns book even the person has still due fine.
- 4) Remove member : If a member is holding some books and librarian removed him , then all the books he is holding will be returned to available books.

How to run file -

Just run the main.java file in any IDE . Main.java file is the main file containing whole code.
